Chairman's Message

Dear Parents

Welcome to the Academic Heights Public School (AHPS) – The AHPS is characterized by a powerful collaborative, professional culture. We are committed to creating leaders who firmly believe that dreams can be transformed into reality. Therefore, we encourage our students to believe in vision, trust, teamwork and the power of relationships.

The meticulously nurtured learning environment is stress free and fear free. It enables and encourages new ideas to flourish. Students are encouraged to persist in their quest for learning and acquire the requisite skills to excel in our information driven globalised world.

Our techniques are learner centric, project based and cater for the holistic development of multiple intelligences. Besides this, we also acknowledge and encourage our students to learn in their unique mix of Visual, Auditory, Tactile or Kinesthetic ways. While every student follows the general curriculum, he or she is actively encouraged to develop talents and interests well beyond it.

Co Scholastic and sports activities in our school are designed in such a way that they broaden the opportunities for students to manifest their talent, practice leadership, hone life skills and challenge themselves to develop interest in new areas. Compulsory participation in these activities boosts self confidence and enhances self esteem as well as fosters positive relationships with peers, teachers, administrators and community leaders.

During their study over here, we help them to develop self confidence, create lasting leaderships and learn the responsibilities and skills necessary to become good citizens besides deriving a set of morals and principles that they can successfully practice for the rest of their lives.

In the end I would like to assure you dear parent that we at the AHPS are resolved that our school will always prove itself to be the place where everyone is precious and appreciated for his or her intrinsic qualities. In other words, the atmosphere over here will constantly endeavor to focus on the complete potential of each and every student and will strive to foster in each one an undying enthusiasm for life-long learning. It is my ardent desire that our school forever be the place where staff members, parents and even other stake holders synergize their resources and creativity to enrich the learning environment in which our children can holistically and fully develop their physical, intellectual, emotional, social and spiritual capabilities.

Looking forward to receive your child into our care.

Yours Sincerely

Aim of the School

Prepare Honest, Truthful and Conscious Citizens of the World

Who can attain leadership positions and also be conscious of their responsibility towards the Society and the World.

Preparing Students comprehensively to compete in all Scholastic/Competitive Exams relevant for that class.

- To facilitate student's success in various competitive & scholastic exams in India e.g. **NTSE / National Science Olympiads / JEE Main / JEE Advanced / KVPY / CPT / CAT / JIPMER / AIIMS / AIPMT etc.**
- Students will be prepared extensively for SAT, SAT Subject Tests (US College Board), TOEFL and Advanced Placement Tests for admission into **Prestigious Colleges / Universities of the United States of America (in all Science Streams, Engineering & Medical Faculties)** ahead of IITs in the World Rankings.

About AHPS

Aspiring and striving for excellence in all spheres. Academic Heights Public School endeavours for excellence in body, excellence in mind & excellence in spirit.

Academic Heights Public School, founded in 2013 under the aegis of Cogito Educational Society is a 10+2 co-educational English Medium School affiliated to CBSE, New Delhi.

Academic Heights Public School has initially come up as a Day - School and it is now a Residential School with Day Boarding facilities.

Academic Heights Public School is located off the main road on the periphery of village Jungle Dhusar, Pipraich Road, Gorakhpur.

It is planned child friendly campus with ventilated, spacious class rooms, amenities and informal spaces. It has clean picturesque surroundings, free from the pollution and disturbances of city environment. The environment is conducive for children's health and invigorating for mental application and participation in physical, curricular and spare time leisure activities.

About AHPS Management

Er. Sanjeev Kumar, Chairman

Mr. Kumar, an Engineering Graduate From IIT Dhanbad, is a perfect example of boundless commitment to teach with excellence and to see his students succeed.

After Graduating From IIT Dhanbad, motivated by his desire to work in the field of education, he left his bright future ahead in the Mining Industry and started teaching Mathematics for IIT-JEE.

He believes that everyone can achieve their goals, provided one gets right guidance, right direction to move on for the success in the competitive world.

In his views, if the student learn to visualize the subject, he/she shall definitely be able to solve even the toughest problem.

Er. Kumar maintain his close relationship with Mathematics Fraternity of India. He is also member of Association of Mathematics teachers of India.

Why AHPS ?

Yes, an excellent future for your child is what we promise to deliver. By pushing the boundaries of orthodox education system, by questioning age-old methods of imparting education, by giving young minds the freedom to dream, the inspiration to imagine, and by introducing them to the very idea of excellence, which can transform perceptions, habits, lifestyles, and thus, one's future. When you want nothing but the best for your child, can you compromise on his/her education with something less than extraordinary? We believe the answer is no. And that's exactly the reason why we present to you AHPS.

The AHPS idea was further strengthened by the expectations of good students and their parents across the region. These expectations were uncovered during a comprehensive study conducted by us across the region. This study focused on academically excellent students and their parents, who had a potential to reach the pinnacle of academic achievement. The key outcomes of this study were :

- Schools should empower a child, to not only dream and aspire for the best in the world, but also to pursue his ambitions, without the need of any external support in the form of tuitions.
- It should be the onus of the school system to enable a child to be ready for taking up, competing in and succeeding in any career choice he makes. Fact is that any individual spends almost 70% of one's conscious time in his life, in pursuance of a career /profession. How can a school not focus on this aspect and completely alienate schooling from careers, as is happening currently.
- The school should contribute towards developing the inherent talent of all students. However, what happens currently is that school just provides a platform for those with explicit talent to exhibit the same. That is why you will find that the same set of students who are excellent debaters will always represent the school in any debate competition - throughout their school life.
- The personality is developed in a way that the child is able to face the real world on a sound footing. Be it communication, creativity or analytical thinking – the child should be given equal opportunities / individual attention to develop / hone these skills.
- The importance of good value systems like being truthful, honest, respectful to others and concern for the world at large – is instilled in the child right from the beginning.

Ideal School Education

... is one where you do not have to make choices. Choices between performance in boards or competitive exams. Choices between academics and extracurricular activities. Choices between learning and remembering. And most importantly choices between enjoying education and not being stressed by it.

Ideal School Education is one with a holistic approach that is comprehensive, so that there is no need for any sort of supplementary support services. Where the goal is not just good marks in the Board exams and, in the pursuance of this goal, other areas like competitive exam preparation etc. are not neglected/ discouraged. Where a child is not stressed during the pursuit of a good performance in the board exams and in the competitive exams. And where the child is able to deliver his/ her best in both – boards as well as competitions – that too by having to go through a single system of learning. Where the extracurricular activities are in consonance with the overall objective of wholesome education – making students ready for global careers as well as enabling them to conduct their lives in a much desired, honest, ethical and truthful manner.

Truly Complete Ideal School Education @ AHPS :

- Focus on life skills and ethics which enable students to lead a better life.
- Conduction of periodical seminars for students focusing on the importance of topics like Self discipline, Goal Setting, Time management resulting in better studentship.
- Regular need based (individual and group) counseling
- Identifying and nurturing the innate abilities of every child.
- Giving a Platform to Students for Global Careers.
- Making Education a Completely Enjoyable Process by Eliminating Stress out of the Child's life.

Enhancing IQ and Raising Competition

Internal Competition and Appraisal Programme (ICAP)

Our weekly objective test (based on micro-scheduled teaching during that week) helps children in continual learning and grading where the child is not burdened just before the exam to learn many things.

Thus a student in AHPS is NEVER unhappy or tensed about any exam as learning is a constant UPGRADING, ENRICHING, and ENTHRALLING experience.

Individual Assessment and Development Programme (IADP)

This is our month end exam which is based on the month long learning of the child in different subjects. This is a subjective paper which is to hone the writing skills of the child.

Visual and Performing Arts as a medium of Relaxation

Arts of different mediums in our schools (Painting, Music, Dance) is for relaxation so that they improve student's classroom performance. They are forms of giving an output to their parallel medium of communication.

Games like Spell-O and Chess are introduced to keep their concentration sharp

On an everyday basis we have Yoga and Meditation classes which helps children to relax and concentrate better in their classes

Inter-House Competitions

The schools are divided into four houses where in regular intervals competitions like Debates, Declamation, Quiz, Dancing, Singing, Theatre, Bulletin Board etc. are being conducted.

Extra Curricular

Creating Global Indian Citizens

Recognizing the fact that schools need to play a proactive role in nurturing and developing personalities and preparing the students as global citizens with a strong grounding in Indian Value system, Academic Heights Public School aim for:

1. Proficient & Confident communication ability for each and every student.
2. Inculcating sports / exercises as a discipline for physical fitness throughout the life of each student.
3. Improvement of memory, IQ, mental, physical & spiritual well being, awareness & growth through intensive yoga & meditation for each student.
4. Instilling Indian culture and values in each student, not to learn all this as History & Geography but learn to live like that.
5. Developing personality traits (focus, effective communication, leadership ability, determination, strategic planning, pro-active approach, handling failures, stress and positive attitude required etc.) for success. (This is what corporate sector tries to teach employees who are 25 -55+ years of age and hardly respond to changes required).

Individual Development Program

- In Academic Heights Public School, irrespective of IQ levels of the children, best learning environment is provided for nurturing their inherent talents and honing their skills.
- Recognizing the major anomalies in the current education system, Academic Heights Public School has come up with a unique Individual Development Program (IDP).
- IDP through an ongoing Mentorship endeavours to provide equal opportunities to every single student.
- The Mentorship is individualized and its sole objective is to identify, develop and enhance the inherent talent / skills in every single student.
- Not restricted to the academic aspects only, IDP ensures the development of the core soft / life skills of the students.

Residential Facilities

World-class hostel facilities that promote a sense of well-being among children in a conducive environment to nourish them and enable them to blossom into ideal human beings.

Academics

- Focus is on conceptual learning rather than memorizing skills.
- Designed in a way that students are prepared for various National / International Level Competitive / Scholarship Exams relevant during the class the child is studying in.
- World-class academic infrastructure like state-of-the-art labs and a very well stocked library support academics.
- Academic processes are constantly innovated and benchmarked with the best in the world. Dedicated academic R & D focused on providing the best possible learning intervention to the students.
- Skill-based, concept-based and competency-based academic inputs that optimise inherent talents and capabilities.

Class I to VI : Creating a scientific temperament, introduction to competitiveness and versatility in terms of learning while a concept – oriented teaching methodology is followed. Reinforcement of learning is done through lab activities, projects, seminars, discussion on current affairs, latest who's who, field trips.

Class VII & VIII : Take-off on a higher plane keeping in view the competitive exams and a gradual build up of application of concepts begins. Encouraged to solve a number of IDP worksheets to ensure the completion of learning process at the given point of time.

Class IX & X : Begins with a concrete understanding of the goals set. NTSE, IIT, Medical and General studies – children get branched off based on their interest of pursuit.

Every programme is backed with teaching – learning materials drawn from multiple sources. A dynamic programme continually upgrading itself as per the changing education scenario of the Indian sub-continent. Worksheets, seminars, paper presentations and lab activities – tap the creative corner of the child to bring out the genius in it.

Class XI & XII : The class where the means and goals merge into one. Board exams & competitive exam like IIT-JEE/AIPMT/CLAT - the planning, programme, revision – all culminate in bidding a grand farewell to school education
